SP let øvet - DGI Viby
111 m
Ingo Borchert

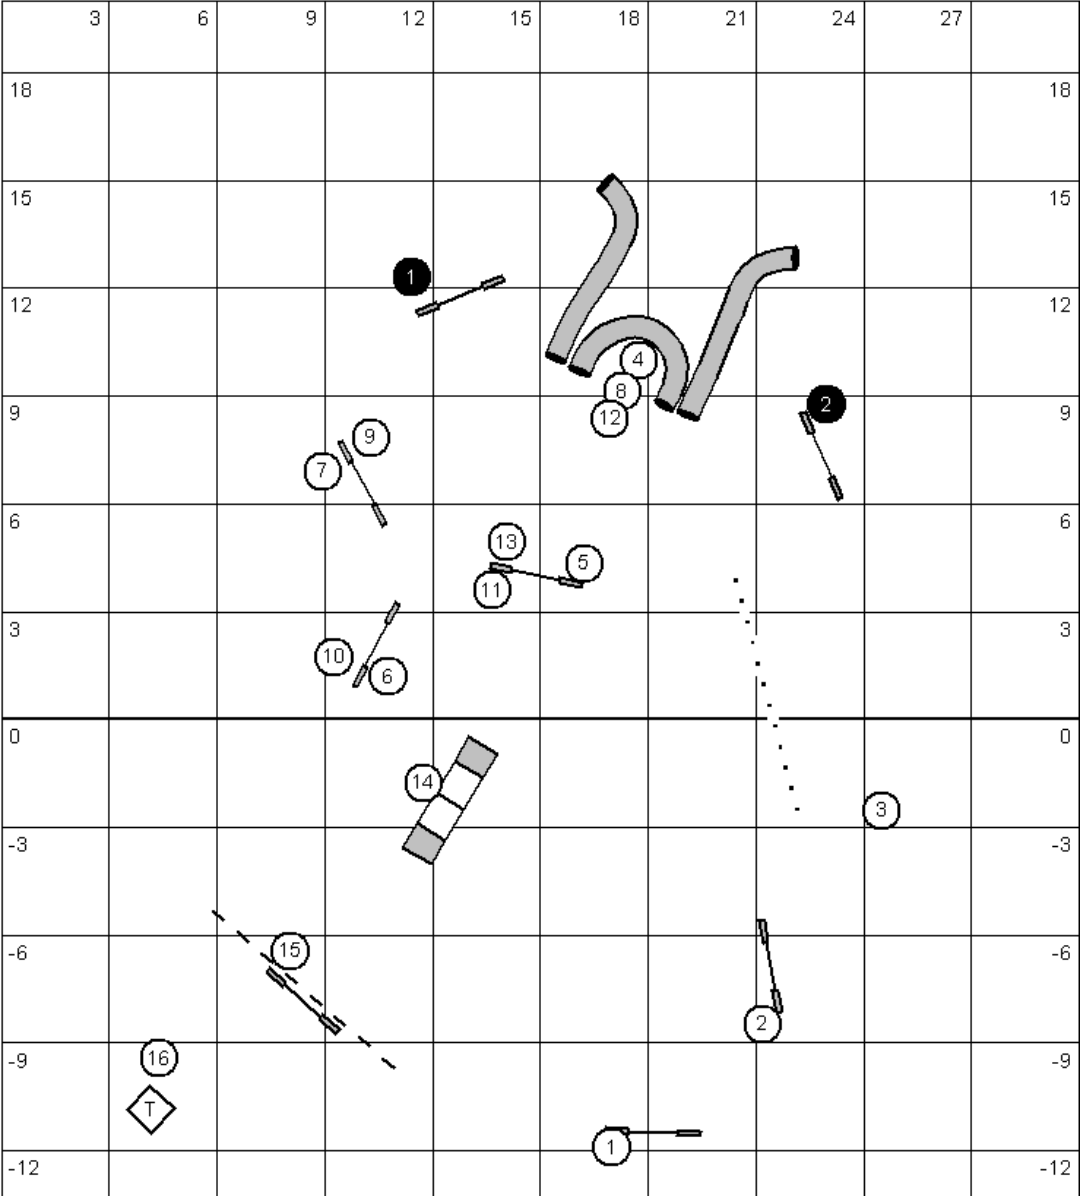

DGI LT2010 i DKK-Viby
 Øvet: Spring
 Design: Sophie
 Længde: 151 meter.

DGI - for sjov klasse, 111 meter
 Ingo Borchert, juli 2010
 Alle tunnelindgange er valgfri. Det ideelle er, at hunden tager den U-formede tunnel. Tager hunden en af de lige tunneler, koster det kun tid, da hunden foruden også skal tage det nærmeste spring med sort nummer, før den må fortsætte ad den nummererede rute.
 Hunden dømmes almindeligt, dog ingen disk ved 3. vægning, eller fejl bane - som dog skal rettes.
 Tiden stoppes ved spring 15. Kan HF holde sig før væggringslinjen af 15 og fjerdirigerer hunden indenfor 15 sekunder på bordet, bliver alle mulige indkasserede fejl slettet.
